Summary

Senior Data Analyst & AI Engineer at BCP (Peru's largest bank) with experience building end-to-end GenAI solutions on Databricks using LLMs. Background in finance and data science, with hands-on expertise in Python, SQL, Polars, and Power BI. Currently developing agentic AI pipelines for wholesale banking analytics. Targeting remote international roles in ML/AI Engineering by 2027.

Work Experience

Banco de Crédito del Perú (BCP), Senior Pricing & Data Analyst / AI Engineer - Built an end-to-end conversational AI agent deployed to 200+ people across wholesale banking, using Databricks and LLMs (Claude Sonnet). - Automated data extraction, transformation and analysis pipelines using SQL, Python and Databricks, significantly reducing operational times. - Developed predictive models for rate optimization and customer behavior analysis, improving commercial and pricing strategy. - Designed analytical dashboards for commercial performance, profitability and client behavior monitoring in wholesale banking. - Promoted self-service analytics within the team, reducing dependency on specialized data and model teams.	Lima, Peru May 2025 – present
DMC Perú, Python & SQL Learning Advisor - Teach Python courses focused on statistics, exploratory data analysis, data visualization and storytelling. - Teach SQL courses covering query building, Data Warehousing, data modeling and Oracle PL/SQL.	Lima, Peru Nov 2024 – May 2025
Intelica Consulting, Data Analytics Engineer - Implemented ETL processes integrating data from multiple sources into a Data Warehouse using SQL Server stored procedures. - Developed automated reports for key banking business units, improving credit and debit card portfolio management.	Lima, Peru Jan 2025 – May 2025
Santander Perú - Surgir, Data Analyst - Automated ETL processes via Power Automate for statistical model inputs. - Extracted credit scores via Experian API using PySpark, significantly reducing data extraction time. - Advanced SQL usage on Databricks for integration, transformation and scheduled report execution for SBS regulatory reporting. - Applied classification models (Decision Trees, Logistic Regression, XGBoost) to predict customer payment default probability.	Lima, Peru July 2024 – Jan 2025
Grupo BC - Cibergestión, Junior Business Analyst - Built interactive Power BI dashboards from financial and accounting databases for executive reporting. - Developed financial models with scenario simulation, sensitivity analysis and risk evaluation. - Applied econometric linear regression to project macroeconomic variables in the banking sector.	Lima, Peru Mar 2024 – July 2024
Ernst & Young Perú, Business Analyst - Delivered benchmark analysis for new business rule methodologies, generating 3M+ USD in marginal financial income for banking clients. - Built a propensity model in Python (logistic regression) to identify high-probability credit customers, validated through A/B testing. - Conducted statistical and trend analyses using SQL and Power BI for LatAm banking process improvements (Peru, Mexico, Canada, Panama).	Lima, Peru May 2023 – Mar 2024

Education

Specialization	Universidad Nacional de Ingeniería (UNI), Business Intelligence & Business Analytics	Lima, Peru
	GPA: Above 18/20	Jan 2024 – Jan 2025
	Relevant courses: Data Analysis, Data Visualization, Machine Learning, Big Data	
Bachelor's Degree	Universidad Peruana de Ciencias Aplicadas (UPC), Finance with Data Science Specialization	Lima, Peru
	GPA: Above 16/20 – Dean's List, Top 10%	Jan 2019 – Dec 2024
	Relevant courses: Econometrics, Data Science, Corporate Finance, Accounting	

Skills

AI / GenAI: LLMs, Claude (Anthropic), Prompt Engineering, Agentic AI, Databricks, MLflow

Programming: Python (Pandas, Polars, Scikit-Learn, XGBoost, PySpark), R, SQL

Databases: Oracle PL/SQL, SQL Server, MySQL, Databricks SQL

Visualization: Power BI, Tableau, Matplotlib, Plotly

Cloud & Tools: Azure, Databricks, Power Automate, SSIS, Git, Model Serving

Languages: Spanish (native), English (advanced), French (advanced), Portuguese (intermediate)

Certifications

- Pricing & Revenue Management – Pacifico Business School
- Data Analyst Career – Platzi (18 courses: NumPy, Pandas, Sklearn, SQL, Power BI)
- Machine Learning with Python – IBM (16 hrs)
- Estadística Descriptiva para Ciencia de Datos – Platzi
