Summary

Senior Data Analyst & AI Engineer at BCP (Peru's largest bank) with experience building end-to-end GenAI solutions on Databricks using LLMs. Background in finance and data science, with hands-on expertise in Python, SQL, Polars, and Power BI. Currently developing agentic AI pipelines for wholesale banking analytics. Targeting remote international roles in ML/AI Engineering by 2027.

Work Experience

Senior Pricing & Data Analyst / AI Engineer, Banco de Crédito del Perú (BCP) – Lima, Peru May 2025 – present

- Built an end-to-end conversational AI agent deployed to 200+ people across wholesale banking, using Databricks and LLMs (Claude Sonnet).
- Automated data extraction, transformation and analysis pipelines using SQL, Python and Databricks, significantly reducing operational times.
- Developed predictive models for rate optimization and customer behavior analysis, improving commercial and pricing strategy.
- Designed analytical dashboards for commercial performance, profitability and client behavior monitoring in wholesale banking.
- Promoted self-service analytics within the team, reducing dependency on specialized data and model teams.

Python & SQL Learning Advisor, DMC Perú – Lima, Peru Nov 2024 – present

- Teach Python courses focused on statistics, exploratory data analysis, data visualization and storytelling.
- Teach SQL courses covering query building, Data Warehousing, data modeling and Oracle PL/SQL.

Data Analytics Engineer, Intelica Consulting – Lima, Peru Jan 2025 – May 2025

- Implemented ETL processes integrating data from multiple sources into a Data Warehouse using SQL Server stored procedures.
- Developed automated reports for key banking business units, improving credit and debit card portfolio management.

Data Analyst, Santander Perú - Surgir – Lima, Peru July 2024 – Jan 2025

- Automated ETL processes via Power Automate for statistical model inputs.
- Extracted credit scores via Experian API using PySpark, significantly reducing data extraction time.
- Advanced SQL usage on Databricks for integration, transformation and scheduled report execution for SBS regulatory reporting.
- Applied classification models (Decision Trees, Logistic Regression, XGBoost) to predict customer payment default probability.

Junior Business Analyst, Grupo BC - Cibergestión – Lima, Peru Mar 2024 – July 2024

- Built interactive Power BI dashboards from financial and accounting databases for executive reporting.
- Developed financial models with scenario simulation, sensitivity analysis and risk evaluation.
- Applied econometric linear regression to project macroeconomic variables in the banking sector.

Business Analyst, Ernst & Young Perú – Lima, Peru May 2023 – Mar 2024

- Delivered benchmark analysis for new business rule methodologies, generating 3M+ USD in marginal financial income for banking clients.
- Built a propensity model in Python (logistic regression) to identify high-probability credit customers, validated through A/B testing.
- Conducted statistical and trend analyses using SQL and Power BI for LatAm banking process improvements (Peru, Mexico, Canada, Panama).

Education

Universidad Nacional de Ingeniería (UNI), Specialization in Business Intelligence & Business Analytics Jan 2024 – Jan 2025
– Lima, Peru

- GPA: Above 18/20
- Relevant courses: Data Analysis, Data Visualization, Machine Learning, Big Data

Universidad Peruana de Ciencias Aplicadas (UPC), Bachelor's Degree in Finance with Data Science Specialization – Lima, Peru Jan 2019 – Dec 2024

- GPA: Above 16/20 — Dean's List, Top 10%
- Relevant courses: Econometrics, Data Science, Corporate Finance, Accounting

Skills

AI / GenAI: LLMs, Claude (Anthropic), Prompt Engineering, Agentic AI, Databricks, MLflow

Programming: Python (Pandas, Polars, Scikit-Learn, XGBoost, PySpark), R, SQL

Databases: Oracle PL/SQL, SQL Server, MySQL, Databricks SQL

Visualization: Power BI, Tableau, Matplotlib, Plotly

Cloud & Tools: Azure, Databricks, Power Automate, SSIS, Git, Model Serving

Languages: Spanish (native), English (advanced), French (advanced), Portuguese (intermediate)

Certifications

- **Pricing & Revenue Management** — Pacifico Business School
- **Data Analyst Career** — Platzi (18 courses: NumPy, Pandas, Sklearn, SQL, Power BI)
- **Machine Learning with Python** — IBM (16 hrs)
- **Estadística Descriptiva para Ciencia de Datos** — Platzi
